**Subject:** Re: Unauthorized Personnel in Section 4

I agree. In addition to the PPE requirements, the terrain of section 4 is uneven and the sides of the excavation may not be very stable so any visitors to section 4 really should be accompanied by someone familiar with that worksite.

Good Evening,

Today the Safety Officer reported that Bret Morris, a representative from the California Attorney General, tried to gain access to Section 4 with an expired badge. He was accompanied by two individuals who are not affiliated with the response. All three personal were asked to leave the site for lack of PPE.

If Mr. Morris or any other officials would like access to the site I recommend that they work through the Liaison Officer. It is critical for personnel accountability and safety that we know about visitors arriving and can plan for it ahead of time. There are a lot of activities going on in Section 4, only essential personnel should be allowed in those areas. Please advise if you would like this handled differently in the future; otherwise, I will pass Mr. Morris's contact information to the Liaison Officer.

Respectfully,

***Ryan Andersen***

Planning Section Chief

Refugio Incident
